FLOOD ALERT

FLOODING IS POSSIBLE. BE PREPARED.

SPRING INTO MARCH

WITH REASSURANCE THAT LASTS

www.cougar-global.com

BE PREPARED.

April showers are fast approaching, be prepared for potential flooding. Many traditional methods of flood protection, such as sandbags, may not be effective against flooding from groundwater. The most effective way to keep groundwater out of your property/ business premises is to use a drainage or pump system to divert the water away from your home or business.

LOWARA FLOOD KITS IN STOCK. LIMITED TIME ONLY
COMPETITIVE PRICES AVAILABLE AT REQUEST

Already have a pump system in place?

COUGAR WISE UP

In recent events, members of the Cougar Technical sales team & Cougar Field Engineers participated in training provided by ITT Xylem. The ITT Xylem Training educated our Staff members and Engineers on the operation and compatibility of the new 5th Generation Hydrovar variable speed drive.

RECENT PROJECT

Cougar Engineers were recently required to enable drainage of excess surface water in a mount field mine for one of our clients. However there were issues involved; the mine has a limit as to how much water it can discharge.

[Find out how Cougar dealt with the issue.](#)
